

Teacher+

Effective Communication for Teachers

THE TEACHER+ COURSE IS ONLINE!

We're excited to announce that the Teacher+ course is now online and ready to be pilot tested by teachers. The course is hosted on the Moodle platform and is available in four languages: English, Spanish, Italian and Greek. We have planned to keep the piloting environment open until the end of March 2022, after which date we will collect the participant's feedback and release the final version.

IN THIS ISSUE

THE TEACHER+ COURSE IS ONLINE

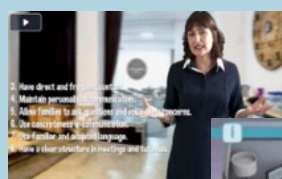

MICRO-TRAINING, GAMING AND PODCASTING: LEARN EASY!

CALL FOR PILOTING: PARTICIPATE IN THE TEACHER+ PILOT TEST

NEXT STEPS

MICROTRAINING, GAMING AND PODCASTING: LEARN EASY!

The course puts together elements of microlearning, gaming and podcasting to offer quality training that respond to the concrete needs of teachers. The course platform can be accessed 24/24 every day, and support is within e-mail's reach!

CALL FOR PILOTING

The TEACHER+ Consortium is inviting schools and teachers in Europe to join the Pilot test of the **TEACHER+** online course on “**Effective communication for Teachers**”.

The course was developed by the TEACHER+ Consortium with the support of the European Union’s Erasmus+ programme and aims at helping teachers to communicate effectively, to manage conflict situations positively and improve their leadership skills, not only in dealing with students but also in dealing with their families and in working with colleagues and non-teaching staff.

The TEACHER+ course structure and contents are based on the needs, expectations and suggestions of a sample of 92 teachers interviewed across Europe. From the data collected, the TEACHER+ research team developed a Competence Framework on which basis the TEACHER+ training programme was designed.

The programme can be accessed through the Moodle e-learning platform and consists of:

- a theoretical part made up of original videos and/or podcasts alternating with video resources available on the web (TED Talks and interviews with educators, communication experts, pedagogues and teachers);
- a situational simulated practice game representing critical incidents that may occur in teachers' daily activities.

The TEACHER+ training programme can be accessed from desktop/laptop or mobile devices and is available 24 hours a day, 7 days a week.

Teachers joining the pilot test will get full access to the TEACHER+ learning resources. Their feedback will be collected through a self-assessment questionnaire that will help us to assess the success of the training and the extent to which participating in the course contributed to an improvement in their communication and interaction skills.

The TEACHER+ course is available in four language versions: **English, Spanish, Italian** and **Greek**. Online tutoring in four languages will also be available, and a visual tutorial will give participants the main instructions on how to use the course.

If you are interested in joining the TEACHER+ pilot experience, please contact the TEACHER+ project secretariat at: training@teacherplus.eu. For more information about TEACHER+ please visit our website www.teacherplus.eu.

NEXT STEPS

In the next issue we'll present the results of the pilot test.
Stay tuned!
